Totals	27	46	31	19	43	51	214	133	106	453

Note: Many of the people that attended our manifest meetings and events represent more than one stakeholder perspective. The categories above, in alphabetical order, were chosen to minimize overlap (ambiguity) and create what we determined to be the most inclusive view of the perspectives of our participants. Absent evidence to the contrary, they are counted by their primary role or perspective. Therefore, the numbers above should be taken as minimums for any particular group. Although not listed in the table as such, the Subcontractors should also be considered to represent their own perspectives, Academic Health Centers (x2), HIT Consultant (1), & Legal Counsel (1).
